ACOUSTIC BAFFLES

BRIDGE PLATE

SUSPENDED

INSTALLATION INSTRUCTIONS

featuring

SOUNDPLY®
ACOUSTIC PRODUCTS

developed and manufactured by

NAVY ISLAND

www.soundply.com • sales@navyisland.com
275 Marie Ave. E, St. Paul, MN 55118 • (651) 451-4454

SUPPLIED HARDWARE

BRIDGE PLATE

1/4" - 20 NUT

ADJUSTABLE COUPLER

LOOP CABLE

DUAL LOCK™

REQUIRED TOOLS & HARDWARE

KNIFE

7/16" WRENCH

LOCTITE

BEFORE BEGINNING INSTALLATION, **OPEN AND INSPECT ALL PACKAGES** TO ENSURE ALL PARTS LISTED ON THE PACKING LIST ARE INCLUDED AND UNDAMAGED.

IF ANY ITEMS ARE MISSING OR DAMAGED, CONTACT NAVY ISLAND AT (651) 451-4454.

INSTALLATION INSTRUCTIONS

Baffle Preparation

If baffles are specific to their location, the labels can be found on the top of the baffles and must be installed according to the shop drawings. If at any point the shop drawings differ from these instructions, follow the shop drawings. If you cannot locate them, contact Navy Island for a copy before attempting to install.

Before starting installation, ensure all wet work such as taping, painting, etc. is complete and that the T-Grid, Unistrut or anchors are secure, level and square per manufacturer's instructions, CISCA guidelines and local codes.

Lay the baffle down on a soft surface and orient the baffle per the shop drawings to ensure correct direction when installed.

Note: pink foam is used to pack all SoundPly shipments and can be used as a soft surface to install hardware on.

X-Hanger Post Install

Install X-hanger 2 1/8" OC from each end of the baffles using the Instructions: SoundPly X-hanger Post.

****NOTICE****

These drawings have been created for the sole use of Navy Island, Inc. The depiction of materials that are not supplied by NII are to be used as reference only. They are not to be used as a substitute for that product. These drawings are to be used in tandem with NII's Installation Instruction document to achieve proper and effective installation. Installation of NII's products, including hardware, that does not meet NII's guidelines are void of warranty and are not the responsibility of Navy Island, Inc. T-grid, hardware or floor layouts are examples only. Installation contractor is responsible for actual grid layout and all cut-out size and location coordination. Navy Island is not responsible for accuracy of information from, or coordination with, trades not directly contracted to Navy Island.

Dual Lock™ Installation

Cut a piece of Dual Lock™ ¼" shorter than the height of the baffle. Remove backer and stick, at a slight angle, to each end of each baffle that will be joined together.

3

Bridge Plate Installation

Fasten the closed end of the Bridge Plate onto the first baffle by placing a small drop of Loctite on the first baffle's stud and screw a ¼"-20 nut into place.

4

Screw adjustment coupler into Bridge Plate and hang baffle by threading loop cable into the adjustment coupler.

5

Push next baffle into place ensuring that the Dual Lock™ is fully engaged and that the baffle is square and flush with the adjacent baffle.

6

Place a small drop of Loctite on the second baffle's stud and screw a 1/4"-20 nut into place.

7

For baffles greater than 10 feet, add one additional X-Hanger and cable at the center of the baffle. Gently tighten the center cable until slight resistance is encountered.

!

For edgebanding and field modifications, please see Install Instructions: SoundPly Panel Modifications.
